iGattipardi mescolano la tradizione con il nuovo design, proiettando disegni originali di maioliche del 18mo secolo in una nuova dimensione. I disegni geometrici tipici dei palazzi signorili dell'epoca in nuove magnitudini e valenze cromatiche si trasformano in progetto contemporaneo.

iGattipardi combines tradition with new designs by projecting new original designs of majolicas from the 18th century into a new dimension. The typical geometrical designs of the family palaces from that period are transformed into a contemporary project through new magnitudes and colors.
