Kelston_m

Gracious and inviting, the familiarity of 18th century traditional design evokes a sense of grandeur and a level of comfort associated with home. The Kelston faucet collection is inspired by an eclectic mix of decorative pieces found throughout pre-1900 Europe. Less concerned with the strict adherence to one specific design movement, the Kelston faucet collection combines elegance with a modern approachability and relevancy for today's user-friendly, function-driven homes.

The Kelston Bathroom Faucet Collection

includes a full offering of lavatory faucets to create a well-coordinated design appeal throughout the entire bathroom environment. The elegant allure of the faceted spout and bonnets is carried throughout the entire collection, adding a delightful combination of elegance and comfort. Featuring high-quality construction and premium materials, the Kelston collection will ensure years of worry-free performance.

Elevating the robust visual allure

of the collection, our design-leading finishes – Polished Chrome, Vibrant_® Brushed Nickel and Oil-Rubbed Bronze – also create a heightened level of versatility. These luxurious finish options coordinate perfectly with Kelston faucets and a wide range of décor, from the more traditional to something with transitional leanings. Today's technology results in durable finishes that withstand the rigors of everyday use and provide a lasting design solution for your home.

Finish Options

Vibrant Brushed Nickel (-BN)

Oil-Rubbed Bronze (-BRZ)
