OF **KOHLER**®

KOHLER

YOUR TIME. YOUR SPACE.

The bathroom—it's where you spend time preparing for your day and unwinding when it's over in your own private refuge. Where you get to slow down and relax with your thoughts ... so why not make the most of it?

Start by exploring six trends through a series of inspired rooms and high-profile case study homes, all showcased to help you find your style and create the bathroom of your dreams. Each trend features three rooms ranging from classic to contemporary. So whether you're looking for an elegant spa-like retreat, an efficient, streamlined space or a combination of the two, you'll find everything in our expertly designed rooms. Use the product listings following each room to recreate the look in your home.

In the second half of this book, you'll find everything you need to start your project and make your design process easier. Learn about the quality of KOHLER® materials, the unique technologies that only we can offer and our distinct, award-winning designs that will bring your vision to life.

GLOSSARY

WHITE ON WHITE

Crisp, clean and often underestimated, a white-on-white color palette can have an extremely powerful effect. From tile to fixtures to vanities and accessories, a room drenched in white is reborn into a pure space to escape both mentally and physically. Bringing lightness to your bathroom, no matter the size, white palettes create the ultimate spa-like atmosphere.

Sun Bleached

A combination of spa-like luxury and advanced technology led to this relaxing tropical retreat.

Mix It UP

A blend of crisp, clean whites and creamy almond hues gives this bathroom an interesting composition that keeps it from appearing washed out.

WHITE

DESIGN TREND

The bathroom is quickly transforming from a utilitarian space to a relaxing retreat for you to rest and replenish without leaving home. Combining spa-like amenities with the smart storage of the **Tailored™ vanity**, this bathroom is a highly styled, highly functional space to quickly get ready in or escape to for some pampering.

SEARCH **WHITE** AT [IDEAS.KOHLER.COM](https://www.kohler.com/ideas)

World of WHITES

A palette with multiple shades of white has a unique ability to reflect and capture light. So while the space is bright and refreshing in daylight, dusk brings out the warm tones of almond in the **Solid/Expressions™ countertop** and **Adair® toilet**, as well as the **Artifacts® faucets** in **Vibrant® Brushed Bronze**, surrounding the space in a cozy glow.

Take a LAP

The bridge between vanities offers a unique styling and storage space when paired with a stool and makeup storage insert.

Warm METALS

Vibrant® Brushed Bronze faucets add warmth and softness to the strong craftsman-like details of the vanity and crown molding.

Ripple EFFECTS

The gentle **Derring™ texture** on the **Carillon™ Round Wading Pool® sink** brings an artistic and tactile element to the space, deepening the visual interest of the vanity area while introducing **Translucent White** to the color palette.

THE ADAIR.® TOILET

Blending seamlessly with the cream-colored walls, the **Adair toilet** in **Almond** is an ideal substitute for a white fixture. Appealing in both design and function, Adair features **Comfort Height.® seating** for easy sitting and standing and a 1.28-gallon flush for exceptional water savings. The included **Grip-Tight Cachet.® Q3 seat** won't slam when closing or shift when you're seated.

Storage & STYLE IN ONE

The warm tones of the **Bellwether.® shower base** in **Almond** are carried through the patterned **Choreograph.™ wall panel** in **VeinCut Biscuit**. Integrated **Shower Locker.® storage** houses an abundance of toiletries and shampoos.

A Soothing **SHOWER**

Rinse off after the beach with a series of water experiences. The **DTV Prompt® digital showering system** controls up to three components. Program **DTV Prompt** to your specific shower settings for a perfect shower every time.

LAYFUL ATTERN

LAYER IT ON THICK.

From bright, uplifting motifs to subdued prints and textures, an explosion of pattern can turn any room into a dynamic experience. Unlike applications of the past, this optimistic interaction with pattern results in larger-than-life scaled prints, unique textiles and dramatically layered executions. From floor to ceiling, in both ultra-modern and distinctly traditional spaces, a clever use of print will enhance the character of your space. Go big or stay small; just have fun with it.

Palm & Collected

Create a surreal escape with a dapper mix of pattern.

Strike a BALANCE

Mix strong design lines with bold, playful patterns.

DESIGN TREND

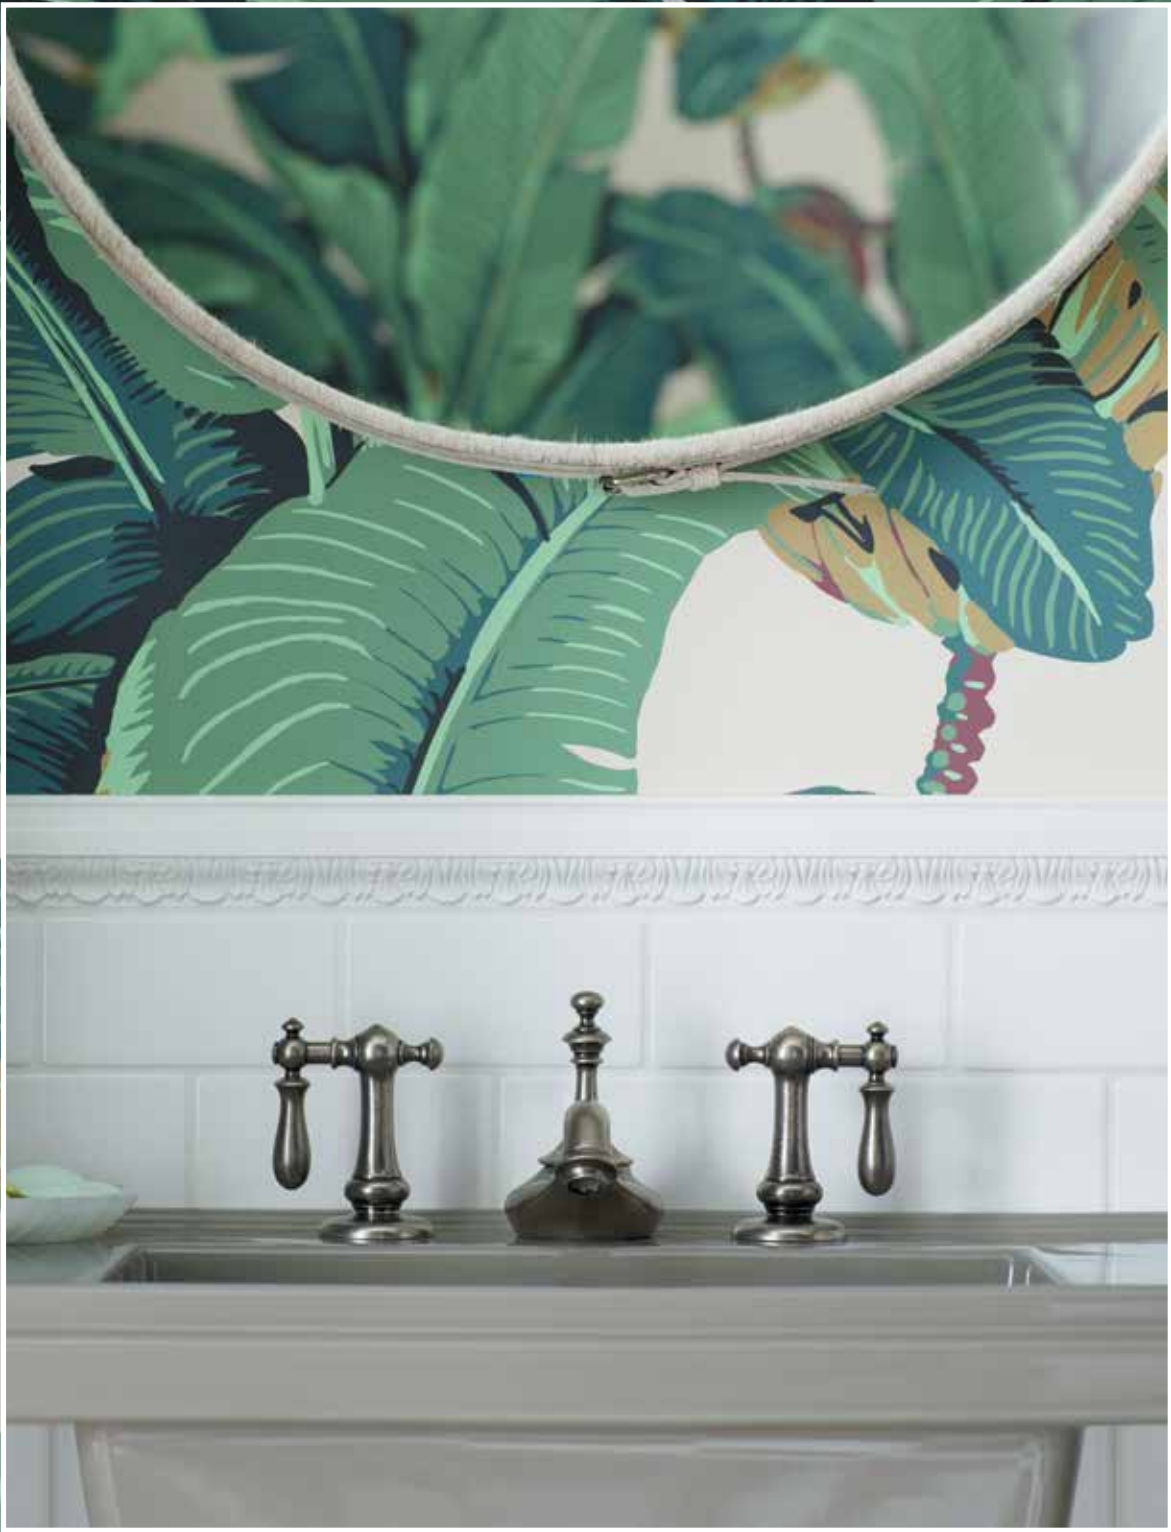

Wallpaper is back in home decor, bringing with it an explosion of bright colors and bold graphics in larger-than-life designs, like this palm leaf motif inspired by Dorothy Draper's iconic use of pattern. There's also a surge of geometric tile displays that are used to make a room feel larger and accentuate the colors in the room, like this tile does with the **Tresham toilet** and **pedestal sink** in **Cashmere**—a dramatic look that's absolutely welcome in a bathroom or powder room.

COLOR BLOCK

Color is back. But then again, it never went away. For some, the love of bold color runs deep, and luckily, fully saturated pinks, purples, cobalts and acid greens are making their way from the runway to the home. Whether it's jumbled, ombre or buried in pattern, the use of color in energizing bathroom spaces is a trend to embrace.

OPTIC

A daring spin on a traditional silhouette, this powerful color-blocking scheme results in a compelling bathroom design.

Star of *Dinner at Tiffani's* and *Saved by the Bell*, Tiffani Thiessen worked with interior designer Kim Lewis (pictured right) to create a crisp, clean and colorful bathroom for her daughter.

The **Adair® one-piece toilet** is an easy-to-clean solution, ideal for a children's bathroom.

Color can seriously enhance the individuality of a room. We used magenta countertops and a yellow radio to create a fun, casual splash of personality.

~ Kim Lewis, Interior Designer

DESIGN TIP

An easy to follow rule for color blocking is the 60-30-10 rule. Choose three colors and devote a percentage of the room to each for a well-balanced design. Here you see the primary color white takes 60 percent of the room, the pink secondary color is used in 30 percent of the room and the yellow accent color can be seen in 10 percent of the space. Typically your plumbing fixtures will fall into the primary color palette so they blend in with the space rather than stand out.

Luxurious SHOWER

Innovatively designed and optimally engineered, our showering components feature the latest technologies to solve the most common showering problems.

Katalyst® Air-Induction Technology

FEEL THE WARMTH AND FORCE OF BIG DROPS
Katalyst air-induction technology infuses water with air for a bigger, more luxurious shower experience.

THE WARMTH OF WATER
Larger drops mean warmer water, up to half a degree more in every drop.

POWERFUL & CONSISTENT SPRAY
The unique design of our Racetrack waterway delivers powerful and consistent spray coverage regardless of water pressure.

CONSERVATION
Saving water doesn't mean sacrificing performance. Katalyst 2.0 gpm showerheads have been reengineered to optimize each drop—creating an experience unlike most other reduced-flow products.
See Katalyst and Racetrack in action at [KOHLE.com/SignatureSprays](https://www.kohler.com/SignatureSprays).

Katalyst =
Larger, Warmer Drops

KATALYST® TECHNOLOGY
This innovative technology gives larger, more luxurious water drops that retain heat longer by infusing air through the showerhead into the water.

WHICH VALVE SYSTEM *is right for you?*

Once you've determined your desired showering experience, it's time to think about how you want to control your shower. There are several options available that allow you to create the perfect showering experience, controlled exactly the way that suits your needs.

DTV+ interface mounting bracket K-99694-CP

Pressure-Balancing Valves

+

Sometimes simple, understated is the way to go. Our Rite-Temp® pressure-balancing valves are all-in-one solutions that let you turn the shower on and off, as well as control water temperature, all with one handle.

Although typically used in more basic applications like a traditional bath and shower, Kohler also offers transfer and diverter valve options that allow you to step up your showering experience by expanding the number of outlets you can control—there is even a high-flow pressure-balancing valve available for either a faster bath fill or custom shower applications.

- Simple operation with a single control for both temperature and flow
- Multiple valve options available from 5.0 to 13.0 gpm flow rates
- Two- and three-outlet transfer and diverter valve options
- Anti-scald protection feature
- Line-matched trim available for the complete range of KOHLER® faucets

Thermostatic Valves

+

If you want to take a basic shower to the next level, a thermostatic valve is the choice for you. Once you set the temperature, the valve automatically maintains your set temperature and is perfect for all applications from a basic bath/shower to more elaborate custom showers.

Add separate volume control valves to individually adjust the flow of each outlet—showerheads, handshowers, body sprays—or in combinations using a transfer or diverter valve option.

- Separate controls for temperature and flow—set your perfect temperature once and then operate the shower components separately
- Multiple valve options available from 10.7 to 17.2 gpm flow rates
- Volume control valves and two- or three-outlet transfer and diverter valve options
- Anti-scald protection feature
- Line-matched trim for both thermostatic and control valves is available for most KOHLER faucets

Digital Valves

+

For the ultimate in clean design, functionality, performance and convenience, digital valve systems are unmatched. Comprised of a digital thermostatic valve and an intuitive, easy-to-operate digital interface, these systems invite you to create a personalized sensory experience.

Whether you're looking for a basic digital system or a truly customizable solution with options for music, lighting, steam and spa experiences, Kohler has a solution for you.

- DTV Prompt® offers an affordable digital showering solution with two or three outlets and 13.0 gpm maximum flow rate
- DTV+™ takes your daily shower ritual to another level with preprogrammed spa experiences that harness the power of water, music, steam and light to take you worlds away with up to 12 outlets and 42.0 gpm flow rate
- Easy to set default and maximum shower temperatures—great solution for the young and old
- Ability to add a second interface outside the showering space for remote operation
- Warm-up feature brings your shower up to temperature, pauses the flow and lets you know it's ready to use
- Anti-scald protection feature

DTV+™ digital interface K-99693-NA
DTV+ interface mounting bracket K-99694-CP

OUR MOST ADVANCED SHOWERING SYSTEM

DTV+™ is a digital thermostatic valve (DTV) that controls four elements to give you a true multi-sensory showering experience. Every element of your showering experience is completely customizable to your needs and is controlled by the touch-screen interface. There's nothing quite like it for the home, and it's only from Kohler.

CONTROL THE ELEMENTS

WATER

DTV+ works with one or two valves. Each valve gives you six, three or two ports that run different showering components simultaneously.

MUSIC

Add a KOHLER® Amplifier and SoundTile® speakers to introduce music into any showering experience. Amp yourself up for the day or unwind from the daily grind with your favorite playlist.

STEAM

Add a steam adapter and steam generator to bask in the rejuvenating embrace of a soothing steam experience

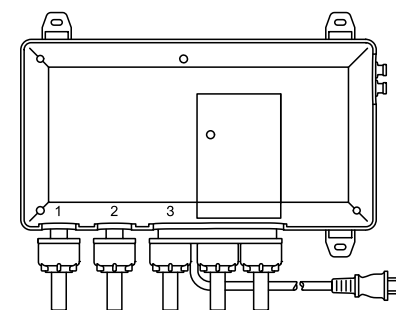

LIGHTING

Add lighting elements to control every aspect of the entire room's ambience. It will set the mood for your very own spa retreat.

KOHLER® Signature Hydrotherapies

Kohler is the only bathing manufacturer in the world to own and operate an award-winning water spa. Our expertise in hydrotherapy allows us to create truly unique experiences that help stimulate the senses and bring the mind and body into balance.

Enjoy spa treatment benefits in the comfort of your home, so you feel an enhanced overall sense of well-being.

VIBRACOUSTIC®
Infuses water with sound vibrations that resound throughout your core, delivering unprecedented relaxation. Choose from preprogrammed rhythms or use your own music selection. With no ports or jets, VibrAcoustic baths are as easy to clean as a soaking bath.

EFFERVESCENCE
Thousands of tiny, Champagne-like bubbles travel slowly along the body, retaining their temperature and creating a warm embrace and a serene experience.

BUBBLEMASASGE™
Delivers a blissful, invigorating full-body massage that helps center the mind and stimulate the release of muscle tension. A standard purge feature simplifies cleaning by removing water from the system after use.

WHIRLPOOL
Delivers a targeted, powerful hydro-massage and consistent water temperature to help reduce tension and soothe sore muscles.

COMBINATION HYDROTHERAPIES
Select models offer combination hydrotherapies:
Whirlpool + Effervescence
VibrAcoustic + BubbleMassage
Whirlpool + BubbleMassage
The hydrotherapy experiences are operated from separate keypads, so you can control each one independently.

FALL IN LOVE WITH FREESTANDING BATHS

A popular choice, freestanding baths allow you to create an oasis in the middle of your bathroom. From acrylic to Lithocast to enameled cast iron, large to small and traditional to modern, our innovative freestanding bathing options elevate a routine task to a pleasurable experience while adding a stunning statement piece to your bathroom. Pair your freestanding bath with a floor-mount filler or opt for an attractive deck-mount faucet that can be mounted on a surface near the bath or, in some cases, directly onto the bath’s deck.

BATHING

- FLOOR-MOUNT BATH FILLERS**
- Feature an integrated handshower for added convenience
 - Single-handle models easily control water temperature and activation
 - Bath fillers carry water up from the floor, keeping the bath's deck uncluttered
- See page 165 for floor-mount options.

- DECK-MOUNT BATH FAUCETS**
- Simple and intuitive to use
 - Ideal for under-mount and drop-in installations
 - Deck-mount faucets can be installed onto a stone or tile deck, or often onto the bath's surface

- WALL-MOUNT BATH FAUCETS**
- Ideal for alcove installations
 - Conceal piping behind the wall, making only the faucet spout and controls visible

Deck-Mount Bath Faucets

- Simple to use
- Can be applied to under-mount and drop-in installations
- Deck-mount faucets can be installed on a stone, tile or onto the bath’s surface
- Many line-matched bath faucets are available to match your sink and shower faucets

KOHLER®

lasting finishes

We offer one of the largest selections of faucet finishes ranging from warm brushed tones to brilliant polished hues to complement your personal style. As tough as they are beautiful, our full line of finishes resists corrosion twice as well as the industry standard.

- Our Vibrant®-labeled faucets are created using PVD—or physical vapor deposition—to bond the finish and faucet together at the molecular level. This process creates an incredibly strong surface that is scratch- and tarnish-resistant.
- All KOHLER finishes resist fading, corrosion and stand up to the negative effects of hard household chemicals.
- Our finishes deliver a single level of quality across all price points backed by service oriented individuals that believe in care and craftsmanship.

See pages 274-275 for full finish offerings.

All KOHLER finishes are backed by a Limited Lifetime Warranty. Visit [KOHLER.com/Warranty](https://www.kohler.com/Warranty) for more information.

Storage. simplified

Keep your bathroom uncluttered and organized with helpful storage solutions. With a place for everything, you'll be able to quickly find your toiletries and extra linens in no time.

TAILORED™ VANITY COLLECTION
Create customized storage solutions and a personalized design for your bathroom. After you've selected a size, style, vanity top color and finish, fill your vanity with practical storage that will help organize your everyday routine. Our custom storage and accessory options ensure every hairdryer, toothbrush and tube of lipstick has its own place.

MEDICINE CABINETS
KOHLER® medicine cabinets are thoughtfully designed to make your mornings easier. Filled with convenient features, our medicine cabinets have adjustable shelves, durable rust-free construction and mirrored interiors so you can find and use what you need without having to swing the door open and closed to use a mirror.

STYLING

STYLE & Storage

Regardless of the size of your space, you can incorporate thoughtful style and plenty of storage. Discover how on the following pages by choosing customizable storage in the Tailored™ vanity collection, wide-deck pedestal sinks or uniquely designed medicine cabinets.

Tailored™ Vanity Collection

Choose your style

The inspiration behind KOHLER® Tailored vanities is rooted deeply in a history of American designs—from Shaker-style influences to mid-century modern. So whether you have traditional tastes or are looking for sleek, modern decor, KOHLER has you covered.

Choose your size & configuration

From small powder rooms to the master bathroom, choose the right configuration for the look you want. Standard industry sizes run from 24 inches all the way up to 72 inches. Refer to the Tailored vanity specification guide for all configuration possibilities.

Accessorize your Tailored vanity

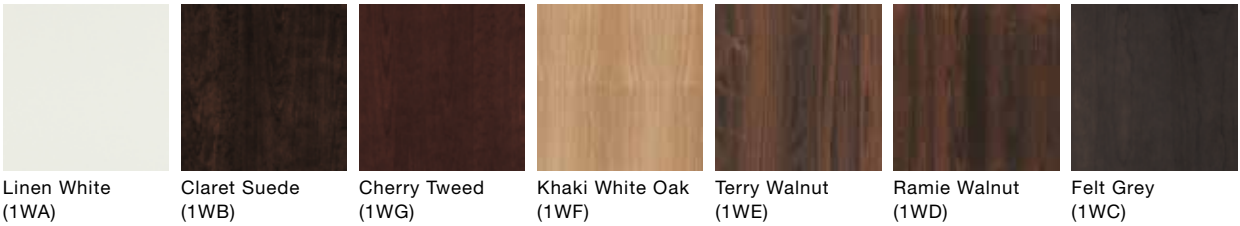

The KOHLER Tailored vanity collection is designed to bring smart, personalized storage to your vanity space. In-drawer storage makes organizing makeup a snap and optional electrical outlets keep hair dryers and electric toothbrushes off the counter. Finish your look with either Tailored vanity hardware or hardware from our line-matched faucet families.

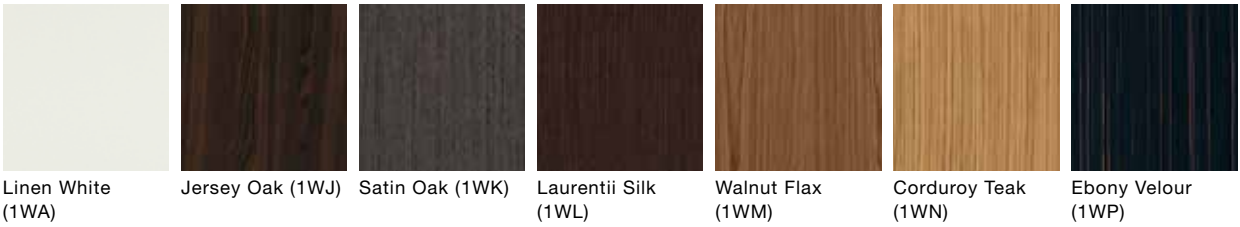

Choose your vanity finish

From traditional to rustic to modern, choose the finish that best showcases your personality and ties the room together.

- Ideal for above-counter, wall-mount and under-mount sinks
- Helps keep the countertops clear

MANUFACTURED FOR LIFE

We combine stunning design with steadfast performance to create KOHLER bathroom faucets. Tough as they are beautiful, they're leak-free and on-task, standing up to twice the industry standard. Choose a KOHLER faucet and count on a lifetime of practical beauty.*

*See [KOHLER.com/Warranty](https://www.kohler.com/Warranty) for full warranty details.

WATER SAVINGS

Most of our bathroom sink faucets carry the WaterSense® label. This means they use approximately 30 percent less water than a standard faucet while still meeting strict performance guidelines.

Faucet Families

From ornate and detailed to simple and streamlined, find your favorite style and complete your bathroom with coordinating accessories. Our faucet families come in a wide range of styles, each offering multiple configurations and accessories to give you plenty of design options.

Toilet SPACE

Incredible performance. Award-winning design. Innovative technology. With KOHLER® toilets, you can count on it all. Featuring advanced technology, our wide range of stylish water-saving toilets gives you the powerful and efficient performance that you need with the cleanliness and comfort you want.

HERE ARE SOME THINGS YOU NEED TO CONSIDER
AS YOU CHOOSE YOUR TOILET AND TOILET SEAT:

TOILET

- Size, height and shape
- One-piece toilet
- Two-piece toilet
- Wall-hung toilet
- Intelligent toilet

TOILET SEAT

- Shape
- Convenient features such as a nightlight, deodorizing system, Quiet-Close™ lid and seat, or Quick-Release™ hardware
- Bidet functionality

Rethink CLEAN

KOHLER® toilets are designed to be clean in every way. They look clean. They flush clean. They use new technologies to help keep your home more sanitary. Because for your bathroom, there’s no such thing as too clean.

CLEAN DESIGN

Smooth, sleek lines don’t just look clean, they also wipe down easier so you can maintain a more hygienic environment.

CLEAN FUNCTIONALITY

Our touchless technology lets you flush by simply holding your hand over the tank, so there are fewer germs to pick up or leave behind.

CLEAN SELF

Toilets and seats with bidet functionality provide soothing, hygienic warm-water cleansing for a refreshing alternative to toilet tissue alone.

CLEAN SPACE

From seats with built-in air fresheners to wall-hung toilets that make it easy to clean underneath, KOHLER technologies help keep your bathroom fresh and clean.

CLEAN FLUSH

KOHLER toilets carrying the Water-Sense® label use 20% less water than standard 1.6-gallon toilets while still meeting strict flushing performance standards for a powerful flush and clean bowl.

BOLD INNOVATION

Karing one-piece compact elongated toilet
with bidet functionality K-4026-0

Intelligent Toilets

KOHLER® intelligent toilets combine innovative design, technology, personalized cleansing and significant water savings into stunning styles. From striking forms to programmable settings, our intelligent toilets bring a new level of comfort to the bathroom.

PERSONALIZED COMFORT

Control your preferences for a heated seat, bidet and air dryer for at least two users with an intuitive touch-screen remote. A built-in LED nightlight and hands-free opening and closing functionality provide added convenience.

ARTFUL DESIGN

Intelligent toilets feature an innovative tankless design that makes a stunning style statement in any decor while their skirted one-piece design makes them easy to wipe clean. The intuitive touch-screen remote can be mounted on the wall or handheld.

DYNAMIC CLEANSING

Offering remarkable bidet cleansing built directly into the design, intelligent toilets feature a self-cleaning bidet wand, precision air dryer and a deodorizing filter all in one.

go touchless

At Kohler, we innovate with purpose. Nothing to touch means fewer germs to pick up or leave behind. And a more hygienic home is a healthier home. Our touchless toilet technology is available preinstalled on select KOHLER® models or as an easy-to-install kit that fits most toilets.

EASY TO USE

Simply hold your hand over the sensor to flush—no touching required. We’ve taken technology successfully introduced in public bathrooms and redesigned it for the home.

HYGIENIC

A no-touch flush eliminates the use of a trip lever and one more area for germs to be passed along with each user. A more hygienic flush brings a new level of clean to the bathroom.

EASY INSTALLATION

It couldn’t be easier to upgrade your existing standard-flush toilet to a touchless toilet with a touchless flush kit. The kit installs in minutes and is powered by four AA batteries.

Saving without **SACRIFICING**

Achieving the best flushing performance with as little water as possible has been a focus of ours since the 1970s. So today, as local, state and national governments take action to reduce water usage, we're ready with solutions.

LOOK FOR THE WATERSENSE® LABEL

Toilets bearing the WaterSense label use at least 20% less water than standard 1.6-gallon toilets while still meeting strict flushing performance standards. Kohler offers a wide array of WaterSense-labeled toilets that can save up to 16,500 gallons of water in just one year.

CONSIDER A DUAL-FLUSH TOILET

- Choose either a half flush for light waste or a full flush for solids
- Easy way to save water
- Uses 20% less water than a standard 1.6-gallon toilet

TOILETS

CHOOSING *your.* toilet

CONSIDER YOUR SPACE

- COMPACT ELONGATED**
- Fits the elongated bowl into a round-front space
 - Offers added room and comfort for seating

- ELONGATED**
- Measures 18¾" or more
 - Fits most residential spaces
 - Provides added room and comfort for adults

- ROUND-FRONT**
- Measures 16¾" or less
 - Requires less space
 - A good solution for small spaces

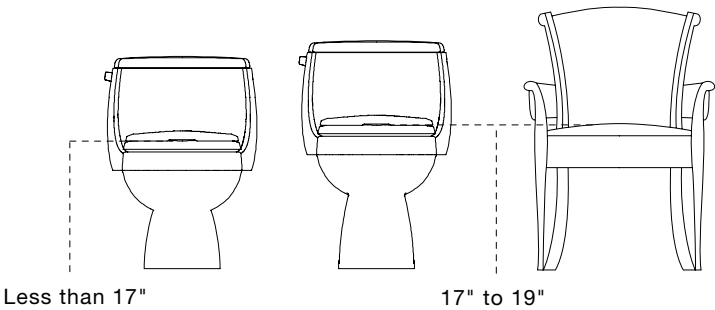

For the ultimate space saver, see page 250 for wall-hung options.

CONSIDER COMFORT HEIGHT®

- Sit at standard chair height — approximately two inches higher than traditional toilets
- Makes standing and sitting easier
- Many are ADA-compliant when installed per applicable guidelines

STANDARD HEIGHT

- Traditional-height toilets are ideal for many users
- Some low-profile models are perfect for small spaces while providing a comfortable seat

CONSIDER STYLE & CLEANLINESS

- WALL-HUNG**
- Mounts to wall for easy cleaning beneath the toilet
 - Tank and mounting hardware are concealed behind the wall

- ONE-PIECE**
- Integrated tank and bowl offer a seamless easy-to-clean design
 - Fewer creases for dirt and germs to hide

- TWO-PIECE**
- Separate tank and bowl design
 - Features DryLock™ system to prevent water leakage

- SKIRTED TRAPWAY**
- Offers an easy-to-clean smooth surface from front to back

- CONCEALED TRAPWAY**
- Features a smooth surface that's easy to wipe clean

- EXPOSED TRAPWAY**
- Traditionally designed, exposed trapways can be seen from the side of the toilet

BATHROOM *Collections*

Make bathroom design simple and beautiful with KOHLER® collections. Our coordinating fixtures and faucets take the guesswork out of creating a look you love. Each collection can be a complete design solution or a starting point for mixing and matching. With styles that suit any home from traditional to contemporary, you're sure to find the style of your dreams.

See the entire offering of collections at KOHLER.com/Collections.

Tresham®

The Tresham collection is steeped in the traditions of classic Americana while embracing a modern eclectic sensibility. Tresham vanities, toilets, sinks and shower bases bring this playful eccentricity, this eclectic elegance, to the American bathroom. Celebrate tradition – with a twist.

Kathryn®

Evoking the unforgettable style of the early twentieth century, the Kathryn collection is inspired by a 1929 exhibit of KOHLER products at the Metropolitan Museum of Art. Each detail of the collection pays meticulous attention to the original design.

Memoirs®

Inspired by traditional style, the Memoirs collection echoes the stylized lines of historically renowned furniture and architectural design. Choose from two distinct interpretations: the clean, crisp lines of Memoirs Stately and the rounded detail of Memoirs Classic, which resembles crown molding.

Bancroft®

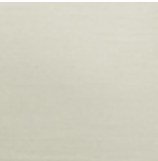

Inspired by the traditional elegance of early 1900s American design, with iconic lines and familiar shapes, the Bancroft collection offers universal appeal for today's bathrooms. Matching faucets and accessories complete the look.

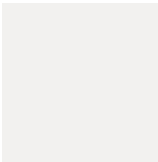

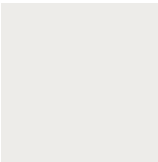

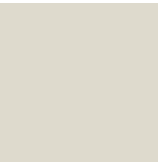

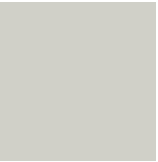

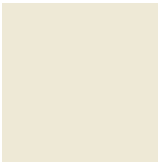

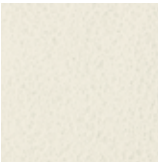

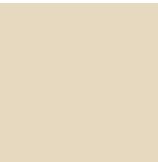

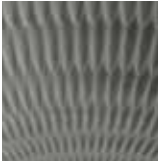

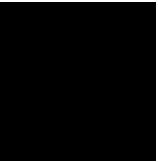

Archer®

Blending subtle design elements found in the chamfering techniques of craftsman furniture with the intricate facets of jewelry, the Archer collection achieves an interesting transitional aesthetic. The vanity brings texture and visual depth to the collection, while the fixtures combine curved and beveled edges to suit an array of design motifs.

Acrylic

A strong, flex-resistant material, acrylic has a smooth finish that resists chipping and cracking, and is easy to clean.

Bath

KOHLER® baths are ergonomically crafted to gently support the natural curves and angles of your body. Just calm, quiet water and you.

Chromatherapy

Chromatherapy uses lights placed around the bath to infuse the water with color. Choose a repeating sequence of eight hues, or choose the color that suits your mood.

Concealed Trapway

This feature provides a clean transition at the back of the toilet base, hiding the trapway for aesthetic and cleanability purposes.

Digital Showering System

Our precision-engineered digital thermostatic valves (DTV Prompt® and DTV+™) can run and control multiple showering components with digital controls.

Drop-In

Drop-in sinks and baths have a rim or lip that rests on the counter while the bowl or bath rests below. Ideal for remodeling, drop-in sinks can be easily retrofitted to an existing counter.

ADA-Compliant

ADA-compliant products will comply with the Americans with Disabilities Act when installed per the requirements of the accessibility guidelines.

BubbleMassage™

BubbleMassage technology pushes air through airjets positioned along the perimeter of the bath, creating thousands of bubbles for a range of tactile and visual sensations.

CleanCoat® Technology

This glass surface treatment makes it easier to remove hard water sports by creating a protective barrier that repels water and prevents dirt and water minerals from collecting.

Console Table

A beautiful accompaniment to KOHLER vanity-top sinks, console tables work well in bathrooms where extra storage isn’t essential. Designs range from clean and crisp to intricate and ornate.

Diverter Valve

A diverter valve directs water to multiple outlets, such as to the bath faucet or the showerhead, allowing you to control separate components with just one valve. Unlike a transfer valve, diverter valves do not allow you to run two water components at once. This valve can be used with a Rite-Temp® pressure-balancing valve or thermostatic and volume control valves.

Dry Lock™

A simple system for connecting the toilet tank and bowl on a two-piece toilet, eliminating bolt holes in the tank and requiring only a socket wrench.

Alcove

An alcove is a recessed nook or area within a room. Fixtures designed for corner or three-wall alcove installations feature unfinished exteriors and tile flanges on two to three sides. Many of these fixtures include an integral apron to complete the design.

Centerset Faucets

Compact and space efficient, centerset faucets fit three-hole sink drillings that measure 4" from one side to the other. They often have a connected spout and handles, although sometimes the spout and handles are placed close together instead.

Comfort Height® Toilets

The height of a toilet bowl (with seat) that stands at the same height as a standard chair, measuring between 17" and 19" for maximum comfort and ease when sitting down or standing up.

Digital Interface

Our digital showering system features intuitive electronic controls that allow you to operate and customize your shower experience at the touch of a button.

Double-Bowl Sinks

Designed for busy bathrooms, double-bowl sinks provide plenty of room for simultaneous use by two people.

Dual-Flush

A water-saving flushing technology that lets you choose either a half flush or full flush.

Effervescence

Effervescence technology is designed to move water and air gently through unique ports to create champagne-like bubbles that cling to your skin and pamper your body.

Freestanding

This installation option is ideal when the bath is the focal point of the room. Accessible from all sides, the freestanding bath highlights the beauty of the design.

GPM

An abbreviation for “gallons per minute,” a term used when discussing water flow rates for showerheads and handshowers.

Handshower

A great option for the family shower, handshowers can function in place of or in combination with a wall-mounted showerhead. We offer both multi-and single-function handshowers.

Katalyst® Spray

Katalyst spray is a revolutionary air-induction system that intensifies water’s rinsing ability and makes each drop feel bigger and perform better.

Kotton® Spray

Kotton, one of the flow options on Flipside handshowers and showerheads, creates a soft, enveloping sense of relaxation.

Elongated Bowl

A toilet bowl having dimensions of about 14" wide by 18½" long (from the center of the seat hinge holes to the front edge of the outside rim).

Fully Glazed Trapways

All KOHLER toilets have glaze applied to the trapways – the passageway inside the bowl – for a smooth surface that ensures a strong, complete flush.

Gravity-Fed Toilet

A toilet that relies on the natural downward pressure of water in a toilet tank to flush the toilet effectively.

Integral Apron

Some bathtubs fit into a three-wall recess, which is ideal for a bath/shower installation. Many alcove baths include an integral apron that helps make installation hassle-free.

KOHLER® Enameled Cast Iron

KOHLER enameled cast iron is made in part with recycled material, comes in an array of colors and has a Lifetime Limited Warranty.

Koverage® Spray

Koverage delivers a full-face spray for superb rinsing performance. It’s featured on Flipside products.

Enamel

A powder coating applied to an iron casting. When exposed to high temperatures, the coating melts and bonds to the casting, creating a glass-like surface. The thickness of KOHLER enamel provides outstanding protection against chipping and scratching while offering deep color integrity.

GPF

An abbreviation for “gallons per flush,” a term used when discussing water consumption for toilets.

Grip-Tight Rubber Bumpers

Located on the underside of the toilet seat, Grip-Tight rubber bumpers grip the bowl to add stability and prevent shifting. Available on Q3 seats.

Integral Flange

Several baths and whirlpools have an integral flange or flat rim along the edge of the bath that attaches directly to the studs, helping to prevent water from seeping behind the bath, tiles or surround.

Komotion® Spray

One of the four flow options on Flipside® products, Komotion has a circular pattern for a deeper sense of an exhilarating massage.

Kurrent® Spray

Kurrent, featured on Flipside, eases away aches and pains and revitalizes with a targeted massage spray.

Lithocast® Material

A premium solid-surface material that allows for new geometries, textures and designs for the modern bath. Lithocast offers the beauty of real stone yet is warm and comfortable against the body.

Overflow Drain

Some sinks have a hole that lets water drain to help prevent overflow.

Pressure-Balancing Valve

The Rite-Temp® pressure-balancing valve lets you precisely control your water temperature; 3 degrees of handle rotation changes the temperature by 1°F. If the cold water supply is interrupted, the valve will automatically reduce the water flow.

Quiet-Close™ Technology

A KOHLER technology that allows a toilet seat to gently close instead of slamming. Available on all Q3 seats.

Semi-Frameless vs. Frameless

A semi-frameless bath or shower door has a metal frame mounted to the edges of the glass, adding structure. On a frameless door, heavier, thicker glass eliminates the need for structural framing and creates a sleek, contemporary look.

Smart Toilet Seats

A soothing, fresh alternative to toilet tissue, some smart seats and toilets feature integrated bidet functionality with a user sensor that triggers an in-tank water heater, while dual wands give a soft, aerated wash in posterior and anterior positions. A touch of the keypad controls rate and temperature of water flow.

MasterClean™ Sprayface

A MasterClean sprayfauce resists mineral buildup and makes cleaning easy.

Pedestal Sink

A stand-alone fixture, the pedestal sink features a generous bowl available in multiple sizes and styles to complement other fixtures.

Quick-Attach® Hardware

Innovative toilet seat hardware speeds installation and provides a tighter, more secure fit. Available on all Q2™ & Q3™ seats.

Rainhead

Featuring Katalyst® spray technology, KOHLER® rainheads deliver a powerful, thoroughly drenching shower experience.

Single-Handle Faucets

Single-handle faucets allow you to control water volume and temperature with a single handle – typically placed above the spout. They’re designed for sinks with a single hole or, when combined with an escutcheon plate, for sinks with three centerset holes.

Thermostatic Valve

A valve system that separates volume and temperature controls. Our MasterShower® thermostatic valve – featuring an innovative shuttle design – gives you total control of your shower environment. The one-piece forged-brass body is built to last and eliminates potential leak paths.

One-Piece Toilet

A toilet in which the tank and bowl are manufactured as a single vitreous china fixture. Typically, one-piece toilets have a lower profile than two-piece toilets, with some featuring a Comfort Height® bowl.

Pivot Door

Also called swinging or hinge doors, pivot shower doors swing open like a traditional door and provide an easy-to-access, open shower environment and a clean, sophisticated look.

Quick-Release™ Functionality

Functionality that allows you to unlatch the hinges of the toilet seat for easy seat removal and convenient cleaning; no tools required. Available on all Q2 & Q3 seats.

Round-Front Bowl

A toilet bowl having dimensions of about 14" wide by 16½" long (from the center of the seat hinge holes to the front edge of the outside rim).

Sliding Doors

Typically chosen for baths and large showers, sliding doors overlap with a smooth, quiet sliding action.

Transfer Valve

Used in conjunction with a Rite-Temp pressure-balancing valve or with thermostatic and volume control valves, the three-way transfer valve lets you choose from six different outputs with a simple turn of the handle.

Trapway

The channel in a toilet that connects the bowl to the waste outlet. The trapway is where siphonic action takes place, and it’s measured in terms of the largest diameter ball that can pass through it. Also referred to as “passageway.”

Under-Mount Sink

These sinks mount beneath the counter to create a seamless counter-to-basin transition. Sleek style and ease of cleaning give this installation type its appeal.

Vessel and Wading Pool® Sinks

Vessel sinks are freestanding basins that rest on the counter – a dramatic centerpiece for any bathroom. Wading Pool above-counter sinks, unique to Kohler, accentuate the movement of water.

Wall-Mount Faucets

Mounted on the wall behind the sink, wall-mount faucets work well with above-counter, wall-mount and under-mount sinks. They provide a stream-lined look and help keep countertops clear.

Whirlpool Jet

Individually and fully adjustable to target specific areas of the body, KOHLER whirlpool jets deliver powerful hydro-massage.

Trim

All shower valves require trim, the controls you use to adjust water flow and temperature. Designed to match KOHLER® fixtures and faucets, shower trim is available in a wide range of styles and finishes.

Under-Mount Bath

The deck of the bath is mounted beneath your choice of deck material, such as tile, solid surface or natural stone.

VibrAcoustic®

VibrAcoustic hydrotherapy combines music, sound-wave vibration and chromatherapy in the bath, delivering relaxation that resonates deep within the body.

WaterSense®

WaterSense, a partnership program of the U.S. Environmental Protection Agency, seeks to protect the future of the nation’s water supply by offering people a simple way to use less water with water-efficient products.

Widespread Faucets

Widespread faucets feature separate hot and cold handles that are independent from the spout. They can be mounted on the countertop or on sinks with three holes that fit 8" to 16" from one side to the other.

Trip Lever

A lever, often a handle, rotated to initiate the toilet flush cycle. Factory-installed trip levers have a Polished Chrome finish; optional trim kits offer trip levers in other finishes.

Vanity-Top Sink

Designed to coordinate with KOHLER vanity and console table styles and sizes, vanity-top sinks fit snugly over the entire cabinet or table and act as both counter and basin.

Vitreous China

A term applied to plumbing fixtures that are comprised of ceramic materials, fired at a high temperature to form a nonporous body with exposed surfaces and coated with ceramic glaze.

Whirlpool

KOHLER whirlpools deliver powerful directed massage with jets that are fully adjustable in direction and massage intensity.
