SANITARYWARE
Mood

Noken presents MOOD, a new concept in bathrooms comprising two large families of products: a sanitary ware line and a brassware line. The sanitary ware line, designed by Rogers Stirk Harbour + Partners and Luis Vidal + Architects combines the world of ceramics with the integration of accessories. Our broad range of options makes this collection modular and expandable, as well as versatile and functional. An exciting combination of colours brings a touch of freshness and modernity.

Available for single lever basin mixer or custom cutout for MOOD wall mounted basin mixer (go to page 16). Washbasin included. For further information please consult your nearest Retail outlet or our website.

Available with Chrome or White flush buttons. Wall hang pan and SMART LINE cistern included. For further information please consult your nearest Retail outlet or our website.
Noken developed a new concept of interior design by integrating sanitaryware into the actual bathroom structure with an increased aesthetic value. The straight lines and square volumes contribute a refreshing character to bathroom spaces. Neox stands for a trendy series emphasizing a modular and integrated approach, which makes it the ideal choice for wellness areas, private spas, gyms, etc…

---

**Essence C**

Haute couture for the bathroom. Several years have passed since the first Essence bathroom unleashed a revolution by transforming bathroom spaces into living spaces, imbued with elegance and creating a warm and cozy atmosphere. Essence-C follows the same values with a modern twist.

80 cm. wall hung basin + Towel rail *

46 cm. countertop basin

* Towel rail is optional
**Forma**

Timeless and contemporary. The rounded corners and curvature shape that characterize the Forma collection creates a feeling of lightness in the bathroom. The more modern and complex our world becomes, the more we long for an escape of the daily stress, to refresh our mind, vision and emotions. The design of the Forma series allows an expression of minimalism but with a personal touch. The sinuous lines of the series, its attractive surface and subtle luxury makes it the perfecto choice for those who seek prestige with contemporary forms for a cozy and functional bathroom environment. The collections features eye-catching ceramic elements with rounded edges providing softness to bathroom aesthetics.

**Arquitect**

The smooth continuous lines, functionality and adaptability to fit any bathroom space, make the Arquitect range suitable for current designer tastes. The variety of products within the range permit both compact and large luxurious bathroom designs. The series contains a CC toilet suite, BTW pan and also wall hung pan and bidet, next to a variety of wall mounted and cloakroom basins. The Arquitect collection shows fluidness and dynamism of lines, that makes it exceptional with a distinctive look. The perfectly balanced and harmonious well-defined curvature silhouette make the Arquitect collection both stunning and highly functional.
Giro

The richness of the Giro collection invites us to imagine many designer possibilities, creating unique architectural spaces extracted from the imagination of great designers. Sculpture, architectural or merely functional object, Giro has been designed to meet the maximum demands with a pure and minimalist design. The fluid shapes and poetic lines in both the wall hung pan and bidet transform your bathroom into an modern designer space.

Lounge

The Lounge range is perceived as a purely geometrical evolution. It does not want to be static as it reflects the dynamic synthesis of the natural lines, neat and rational. Designs that evoke unique architectural spaces born at Simone Micheli’s studio. Result of a thorough analysis, the Lounge sanitaryware range reflects its symbols and poetic expressions.
Hotels

Although with a clear message of resignation, the outcome is generosity. Large basin surfaces occupying minimal spaces and incorporated towel rails located underneath the basin, attribute maximum comfort and functionality to the range. The wall mounted pan and bidet retain the sinuous lines that characterize the Hotels series.

Bela

The Bela collection is characterized by harmonious and smooth shapes, offering smart space solutions with single and double sink compositions. The basins can be combined with practical countertops, both for the smaller and larger sized basin, providing additional storage for toiletries or can be mounted individually on the wall. The CC suite and bidet are designed fully back to wall for easy cleaning and increased hygiene.
NK Logic

The NKLogic series breaks away from traditional rounded sanitaryware and opens a new spectrum. The straight lines and angles become the main feature in this bathroom collection that has been designed to stand out from the usual.

NK Compact

An atemporal design that will last over time appears in the NK Compact collection.
The NKOne series covers all installation possibilities offering CC suites, back to wall pans and wall hung version of pan and bidet. A wide range of solutions to meet every need including a variety of basins and pedestals.

The Acro series takes us to a world where the superfluous is redundant. An interpretation of asceticism that goes beyond the washbasin and toilet suite features that incorporates subtle lines. A complete and ideal series for both large scale and smaller projects, the Acro range is the right solution for any bathroom design.
Urban C - Urban

A contemporary line for modern bathrooms, creating style and quality of life: this series presents unerring simplicity, with smooth curved lines based on the idea of combining different elements into a new and clear design language. Urban-C is known for high quality products at affordable prices with a consistent look.

City

The City collection provides the perfect solution for lower budget projects, but without the need to sacrifice quality and design. Envisaged for those seeking the most practical side of bathroom equipment.
The Imagine series is an approach to stylish bathrooms with Belle Époque design, ideal for those attracted by the XIX century style. A firm tribute to the past but with a modern twist, creating a new archetype of total quality combining purity of forms with sensorial luxury. Imagine brings a balance between fashion and luxury, rationality and emotion.
Imagine N

A necessity might also be a luxury. With its bathroom fittings and consoles, the Imagine N series personifies luxury and exclusivity. The merging of function and beauty with unprecedented precision and knowledge of high class elements symbolises the luxury and exclusivity for special interiors. It is complemented with personal details, not just in the design but also in its decorations.

The MOOD brassware line, designed by Luis Vidal + Architects, is born as a solution to the responsible use of water. In the electronic range, function, flow and temperature can be personalised to suit each use and user. The mechanical range offers the same elegant, futuristic design, adapted to more conventional preferences.
Nora

The highest technology and most exclusive design are combined in the Nora series. The original open spout design allows a water flow in cascade. The basin mixer includes a LED with temperature sensor indicating from cold water in blue to hot water in red. The basin mixer is also available in a standard version without LED.
The Giro mixer features a striking design, able to project the most sophisticated environments through its simplicity and rounded shapes. Its slim semicircular spout immediately attracts attention, while its flat flow regulator provides an elegant waterfall.
The Imagine collection perfectly suits all kind of bathroom designs. A vast variety of mixer options offer a wide range of solutions to consumers. The clean and contemporary design as a homage to past times recreates modern bathroom spaces. The main features of this series are the waterfall spout and low water consumption due a specially designed flow restrictor.
“My idea of aesthetics is not based on minimalism. On the contrary, I base myself on maximalist aesthetics with the soul and subtleness of Italian finesse. The new luxury is in the emotion of a redefined object; sobriety which causes pleasant stimulus without falling into lavish Barroquism and overpowering decoration. Luxury is in the accuracy of the brassware, in its mechanisms, in the synthesised design and in the sensuality of the textures. Human beings become the centre of the space, the only character of the habitat, whose frame of mind expresses the harmonious continuity which peacefully interacts with the users”, Simone Micheli.
A retro look and stylish design elements to reinvent the classical bathroom mixer with a touch of elegant minimalism. The Dune series transmits a beauty that transcends styles.
Forma brings minimalism closer. The sinuous lines of the series, its attractive surface and subtle luxury makes it the perfecto choice for those who seek prestige with contemporary forms for a cozy and functional bathroom environment.
Its rigorous clean lines and rectangular shapes represent the purest essence of minimalism. It is hard to find on the market the range of possibilities offered by the Irta tap collection. A total of 15 variants for single lever basin mixer, including finishes and inserts, to meet the needs of the most demanding.
The NK Logic series echoes well-designed straight lines and appealing cubical forms to cater to modern design language. A meticulously designed integrated aerator with “clean” function allows self cleaning and lime stone protection. The basin mixer comes also in a high spout version for combination with vessel basins. The range shows how square forms usher into a great and flexible design concept. The large choice of items, offering perfect modularity, is the ideal solution for all your designer needs. The NK Logic line of products is also designed to enjoy relaxation, recreation and a sense of well-being in the shower area.
A well-defined mixer body that is dynamically raked forward underlines a fresh and luxurious appeal that results in timeless contours for individual bathroom spaces. A new generation aerator with “clean” function permits easy cleaning and limestone protection. The product lines for basin, bath and shower environments combine straight surfaces and round edges to confirm a special culture for perfect innovative designs.
Simple and stylised design defines this range of tap fittings, characterised by the formal purity of its silhouettes. In addition, NK Concept tap fittings are a clear example of an ecological product, as their cold opening system reduces the energy consumption associated with heaters and steam boilers. The series has washbasin models of different heights, thereby providing an ergonomic solution which adjusts itself to the needs of each user.
The Urban series exudes modern aesthetics and dynamics with smooth lines reduced to the essential. Available in contemporary finishes such as Maximum Chrome, matt black and glossy white adding a distinctive touch to the range.

The Urban-C basin mixer is a combination of function and good design blended with LED technology. The LED emanates from inside the open half round spout donates a truly innovative aspect to the series. More its eco consumption of only 4 liters per minute contributes to the environment.

**Urban - Urban C**
Hotels

Elegant and cosmopolitan. Inspired by urban life and its protagonists. The range is characterized by its remarkable slender shape and elegant looks. The Hotels collection reflects urban aesthetics, blending in effortlessly with timeless elegance. A trendsetter, not only because its original design, but additionally because of its technical performance and sustainability by only consuming 4 liters per minute because of a specially engineered built-in flow restrictor.

Acro N

The distinctively square shape and hidden aerator boosts pure design following the latest trends of minimalism. The vandal resistant aerator and absence of edges and joints, make it also ideal for use in public spaces.
**Acro N Open**

The Acro Open series includes a comfortable hole in the mixer handle that makes access and use easier for all members of the household. This variation was made without changing one bit the modern and functional identity that imbues the entire series.

![Acro N Open](image)

**Mini plus**

This is a brassware model that applies originality to the smallest formats. The flat surfaces of its handles and the upper part of its spout give it a singular and highly attractive personality. We are no doubt dealing with an ideal choice for those who seek small dimensions without sacrificing design.

![Mini plus](image)
The Giro-N series stands for purity and simplicity. The seductive and majestic forms of the spout and handles offer an excellent alternative to more classic and elegant bath spaces. Giro-N is an icon for originality with gentle ergonomics and perfect profile, enhanced by the luxury black and gold finish. Giro-N also combines with the Giro brassware collection.

The sensual forms of the Imagine-N series convey simplicity and purity. The majestic spout boosts originality by its sleek profile and highlights the classic look of this amazing range, enhanced by luxury finishes such as Maximum Chrome and PVD Gold.
The Future collection fuses design and technology to create brassware of great quality and endurance. The cross handles with higher housing attribute an attractive and timeless style to the series. The high spout version donates an extra touch of elegance and functionality to the range.
Based on traditional lines, the Chelsea collection brings an elegant and marvellously fresh retro-look to the nostalgia of the bathroom of yesterday. A collection of stylised parts with the elegance of bygone times yet with a touch of modernity. Simple, slender and conventional lines form the basis for this striking collection.
Forms and classic design take center stage at the Feis collection, inspired by a design evocative nostalgic, but as a solution that focuses on modern and bold design. The simple forms are topped with cross handles and elegant ceramic inlays.

**Victorian Oval**

Traditional cast iron freestanding roll top bath with ball and claw feet, available in white, chrome or gold finish. Ideal both for restored historic homes and more edgy modern design schemes. The Victorian Oval comes with white enamel interior and offers 4 exterior colour options. Includes exposed bath waste with plug and chain, and floor flange in gold, chrome or white.

**Soleil Round**

High-performance acrylic bathtub, built-in or for freestanding with panel. Choose a round bathtub for the soft curves and enjoy the sense of wellbeing that comes from comfortably stretching out in the deep beautifully proportioned Soleil bath. The ultimate bathing experience is the combination of a beautiful bath with the added luxury of a revitalizing whirlpool. Relax and enjoy all the benefits that whirlpool bathing brings. Available with whirltub kits S0, SX1, SX2, SX3, SX4 and SX5. Deckmounted taps are optional.
**Soleil Square**

High-performance acrylic bathtub, built-in or for panel, including a freestanding option with panel. The geometric design of Soleil square allows for a spacious soak for one or two people. For the ultimate in relaxation, enjoy this bath with an invigorating whirlpool system. Available with whirltub kits S0, SX1, SX2, SX3, SX4 and SX5. Deckmounted taps are optional.

**Soleil Oval**

High-performance acrylic bathtub, built-in or for freestanding with panel. Soleil Oval stands for a contemporary double-ended bathtub which comes with streamlined totally one-piece panel to create a freestanding look that will make a design statement in any bathroom. Streamlined and uncomplicated, it is the perfect choice for a whirlpool bath. Available with whirltub kits S0, SX1, SX2, SX3, SX4 and SX5. Deckmounted taps are optional.
**Soleil Quadra**

High-performance acrylic bathtub, built-in or for freestanding with panel. A double-ended bathtub that offers a freestanding look combined with a one-piece panel. The Soleil Quadra design is characterized by a clear line and aesthetic sophistication and can be equipped with whirlpool functions. Available with whirltub kits S0, SX1, SX2, SX3, SX4 and SX5. Deckmounted taps are optional.

**Soleil Offset**

High-performance acrylic bathtub, built-in or for panel. Comfort combined with space-saving is the driving force behind the Soleil Offset bathtub. A corner bathtub with an unusual but striking design, available in left and right version. Available with whirltub kits S0, SX1, SX2, SX3, SX4 and SX5.
Soleil Single

High-performance acrylic bathtub, built-in or for panel. Soleil Single is a spacious single-ended bathtub for extraordinary comfort and universal appeal. Pure geometry with a clear formal language and a celebration of modern lines. Available with whirltub kits S0, SX1, SX2, SX3, SX4 and SX5. Deckmounted taps are optional.

Minimal

High-performance acrylic bathtub, built-in or for panel. The Minimal series stands for purity of design fused with ergonomics. This well-proportioned single-ended bathtub offers great versatility as it comes in three useful sizes that will suit to most bathroom situations. Available with whirltub kits S0, SX1, SX2, SX3, SX4 and SX5.
Minimal XL

High-performance acrylic bathtub, built-in or for panel. Generous proportions and simple lines make the Minimal XL double-ended bathtub timeless in its appeal. The aesthetic perfection from every angle celebrates the lightness of being, with a variety of five dimensions for enhanced bathroom design. Available with whirltub kits S0, SX1, SX2, SX3, SX4 and SX5. Deckmounted taps are optional.

170 x 70 cm. / 170 x 75 cm. / 170 x 80 cm. / 180 x 80 cm. / 190 x 90 cm

Minimal Duo

High-performance acrylic bathtub, built-in or for freestanding with panel. Embrace the moment and fulfill the dream by completing your Minimal Duo bathtub with our whirltub systems for the ultimate luxury in bathing. Available with whirltub kits S0, SX1, SX2, SX3, SX4 and SX5. Deckmounted taps are optional.

190x120 cm
### Minimal Offset

High-performance acrylic bathtub, built-in or for panel. If space is scarce, good ideas are required. Minimal Offset gives you the opportunity to devise a comprehensive design concept, even in the most restricted bathroom spaces. Minimal Offset is a bold and intelligent re-interpretation of ergonomics and economy of space with a contemporary and innovative style. Available with whirltub kits S0, SX1, SX2, SX3, SX4 and SX5.

### Minimal Oval

High-performance acrylic bathtub, built-in or for freestanding with panel. The Minimal Oval double-ended bathtub has been cleverly designed without compromising on comfort. It comes with a robust, streamlined one-piece panel for a freestanding look. Upgrade your Minimal Oval bathtub with our air massage system and chromotherapy for an invigorating, yet soothing bathing experience. Available with whirltub kits SX1 and SX5. Deckmounted taps are optional.
SP One

Acrylic bathtub, built-in or for panel. The SPOne series provides a family of single-ended bathtubs with a classic rounded bathing space, from the 140x70cm for smaller bathrooms to a 160x75cm option. SPOne is the essence of a simply good form and good functionality. Available with whirltub kits S0. Deckmounted taps are optional.

SP One XL

Acrylic bathtub, built-in or for panel. SPOne XL provides a family of double-ended bathtubs up to a luxurious 180x90cm version. Timeless yet contemporary, the SPOne XL bathtubs fit to almost every bathroom environment. Available with whirltub kit S0. Deckmounted taps are optional.
**Ecolite**

Acrylic bathtub, built-in or for panel. No matter what the dimension of your bathroom are, our rich selection of Ecolite single-ended bathtubs will provide you with the ideal solution, including a corner solution. A bathtub range with the ideal format for any spatial situation. All Ecolite bathtubs offer additional hold with optional handles on both sides. Available with whirltub kit S0. Deckmounted taps are optional.

**Acore**

Enameled steel bathtub for built-in solution with an extensive range from 120x70cm to 170x70cm. Straight lines on the outside, curves on the inside. The soft shape of the inside ideally supports you in the bath and provides comfort even with small-sized baths.
