BOCCHI
IL BAGNO PER TUTTI

Köklü bir İtalyan firması olan Bocchi, 65 yıllık deneyimi ile banyo ürünleri sektörünün öncü kuruluşlarından. Kuruluş yılı olan 1950'den günümüze, aynı bakış açısı ile yaratıcı, yenilikçi ve insana değer veren kuruluş olma vizyonunu sürdürmektedir. Yarım asrı aşan bilgi birikimi sayesinde, iş ortaklarına ürün ve serviste her zaman en iyi, en kaliteli ve en yenilikçi çözümleri en doğru fiyatla sunmayı ilke edinen Bocchi, şirket kültürü haline getirdiği bu değerleri gelecekte de korumaya devam edecektir.

Bocchi, con 65 anni di esperienza, é una azienda leader nel settore dell'arredo bagno. Fina dalla sua fondazione nel 1950, ha sempre guardato al futuro con gli stessi obiettivi: eccellenza, innovazione, creatività e centralità della persona. La mission è di offrire ai nostri partners le soluzioni più innovative, altissima qualità nel servizio e nel prodotto grazie alla nostra esperienza pluriennale. Bocchi ha sempre perseguito la qualità, il design e l'importanza del sociale e continuerà a mantenere questi valori anche nel futuro.

Bocchi, with 65 years of experience, is a leading brand in bathroom products sector. Since its establishment in 1950, the mission of Bocchi has never changed: creative and innovative excellence and care for people. Bocchi's mission has always been to offer our partners innovative, high quality and creative solutions in products and service. Today, Bocchi brand stands for design, quality and care for people. Bocchi is aiming to maintain and promote these values in the future.

TASARIMCILAR DESIGNERS PROGETTISTI

İtalyan tasarımcılar Claudia Danelon ve Federico Meroni, Politecnico di Milano Üniversitesi Endüstriyel Tasarım Bölümü'nden mezun oldular. Üniversite yıllarından beri birlikte çalışmakta olan ikili aynı zamanda tasarım stüdyolarının da bulunduğu Londra'da yaşamaktadır. Kariyerleri boyunca ev&ofis mobilyaları, aydınlatma, mutfak materyalleri, banyo ürünleri ve sağlık alanlarında üretim yapan uluslararası birçok firma ile çalışma şansı buldular. Tasarladıkları ev ve banyo mobilyaları, başta Milano'da düzenlenen Salone Internazionale del Mobile Fuarı olmak üzere, Avrupa'daki birçok fuarda sergilenmiştir.

I designer italiani Claudia Danelon e Federico Meroni si sono laureati entrambi in Disegno Industriale al Politecnico di Milano. La loro collaborazione è iniziata durante gli anni universitari e continua tuttora, il loro studio di design ha oggi sede a Londra, dove vivono e lavorano. Durante la loro carriera hanno avuto modo di lavorare per aziende internazionali sia di piccole che di grandi dimensioni. Hanno sviluppato progetti in diversi settori: arredamento, sia residenziale che contract, illuminazione, accessoristica, arredo bagno e prodotti per il wellness. Le loro collezioni sono state presentate in occasione delle più importanti manifestazioni fieristiche internazionali.

Italian designers Claudia Danelon and Federico Meroni both graduated in Industrial Design at the Politecnico di Milano. They started collaborating at university and have been working together ever since. Their design studio DanelonMeroni is now based in London, where they live and work. During their career they had the chance to work internationally for small and large companies in areas such as home and office furniture, retail environments, lighting, tableware, bathroom and wellness products. Their collections of home and bathroom furniture have been displayed at the most important trade fairs in Europe.

Gamze Güven, ODTÜ Endüstri Ürünleri Tasarımı Bölümü'nden 1987 yılında mezun oldu. 1990 yılından itibaren serbest tasarımcı olarak ve son 11 yıldır kendi şirketi Tasarım Üssü'nde tasarım yöneticisi olarak çalışmaktadır. Bunun yanında bir çok ulusal ve uluslararası endüstri kuruluşuna tasarım hizmeti ve danışmanlığı yapan Gamze Güven'in ulusal ve uluslararası 80 den fazla faydalı model ve tasarım tescili vardır. Gamze Güven, Endüstriyel Tasarımcılar Meslek Kuruluşu, ETMK'nın çeşitli dönemlerde yönetim kurullarında aktif görev almıştır.

Gamze Güven, laureata nel 1987 presso il Dipartimento di Progettazione dei Prodotti Industriali dell'ODTU (Università del Medio Oriente), ha conseguito nel 1990 la specializzazione in Architettura presso la medesima Università. Dal 1999 è Docente del corso di "Cultura e gestione della progettazione" dell'Università di Bilgi. Contemporaneamente prosegue la sua attività professionale tramite la Società Tasarım üssü Ltd. Sti., da lei fondata nel 2000. Ha collaborato con importanti aziende turche ed internazionali, quali Bocchi, Mey İçki, Opet, Ana Gıda, Şişecam, PSL World, Ritzenhoff.

She was awarded B.S. degree by the 'Department of Industrial Design of ODTU in 1987 and a Ph.D. degree by the School of Architecture of ODTU in 1990. She has been working as a part-time lecturer for the 'Certificate Program for Design Culture and Management' of Bilgi University since 1999. Gamze Guven is the owner of Tasarım Üssü Ltd. Sti. an industrial design company. She has designed products for Bocchi, Mey İçki, Opet, Ana Gıda, Şişecam, PSL World Ritzenhoff which manufacture products in different markets. Questioning the meaning of products and packaging Guven tries to discover concepts resulting from visual and haptic perceptions and to reinterpret those concepts.

SUPER SMOOTH

SIFIR PÜRÜZ

SUPERFICIE ULTRA LISCIA

Hijyen konusunda bütün bildiklerinizi unutun!
Bocchi kirlenmelere ve mikrop oluşumuna karşı yepyeni bir teknoloji sunuyor.

Forget what you
know about hygiene!
Bocchi presents a new
technology against dirt
and bacteria.

Una nuova tecnologia che
cambia il concetto di igiene!
Bocchi presenta una nuova
tecnologia contro sporco e
batteri.

Türkiye’de bir ilk olan Sıfır Pürüz teknolojisi, sırlı porselenlerin kir ile temas eden yüzeylerindeki istenmeyen lekeleri ve kireçlenmeleri en aza indirmek için geliştirilmiştir. Yıllar süren Ar-Ge çalışmaları ile yaratılan Sıfır Pürüz yüzey, normal sırlı porselen yüzeyden **19 kat** daha pürüzsüzdür. Sıfır pürüz teknolojisi, hijyen ve kir tutma konusunda normal sırlı porselen yüzeye göre tartışmasız üstünlük sağlamaktadır.

Super Smooth surface technology has been developed to minimize lime remains, undesirable dirt and bacteria on ceramic surfaces and make cleaning easier. This technology is the result of many years of research. Super Smooth surface’s roughness depth is **19 times** less than regular glazed surface. Test results show that Super Smooth technology is superior to regular porcelain surfaces, requires much less water to clean and is of course more hygienic.

Super Smooth rappresenta una vera rivoluzione del processo di smaltatura, tale da migliorare incredibilmente l’igiene nell’ambiente bagno. Questo procedimento, realizzato dall’industria ceramica turca dopo una ricerca durata molti anni, riduce di ben **diciannove volte** le asperità dello smalto rispetto alla tecnologia standard. Il risultato é una superficie così liscia e compatta da rendere praticamente nulla la persistenza di batteri sulla superficie ceramica, garantendo contemporaneamente uno smalto la cui brillantezza dura nel tempo.

CLEAN PLUS+

İLK GÜNKÜ GİBİ PARLAK

FOVEVER SHINING

SEMPRE BRILLANTE

Bocchi Ar-Ge ailesinin yepyeni uygulaması Clean Plus+ teknolojisi sayesinde lavabo ve klozetleriniz ilk günkü parlak görüntüsünü çok daha uzun süre muhafaza ediyor. Clean Plus+ yüzey kaplama teknolojisi ile seramik yüzeylerin pürüzlülüğü bir kat daha azalırken, sıvıların yüzey geriliminin artması sağlanıyor. Bu sayede hidrofobik hale gelen yüzey lekelenmeleri, kirlerin yapışmasını ve kireçlenmeleri engelliyor. Daha az kirlenen güçlü temizlik maddeleri gerektirmeden çok kolay temizlenebilen banyo ürünlerinizin üstünden yumuşak bir bezle geçmek ilk günkü parlaklıklarını korumak için yeterli olacaktır.

Another novelty from Bocchi: Clean Plus+ technology. This technology helps you to keep your wc pans and washbasins always brilliant and new. Clean Plus+ technology decreases roughness and decreases contact angle of ceramic surface and creates a hydrophobic effect, which helps to prevent lime remains and undesirable dirt. A smooth wipe and a mild cleaning would be sufficient to maintain the shine of your bathroom.

La tecnologia Clean Plus+ realizzata dal nostro Centro Ricerca & Sviluppo garantisce che i prodotti ceramici Bocchi manterranno inalterate nel tempo la loro brillantezza. Ancora più importante, il processo di smaltatura rende la superficie "idrofobica" e questo significa il perfetto svuotamento e lavaggio dopo l'utilizzo, con una ridotta necessità d'acqua e la possibilità di procedere alle normali periodiche operazioni di igienizzazione senza dover necessariamente usare detersivi, aggressivi ed inquinanti. Basterà un semplicissimo panno morbido.

N PLUS

ECO FRIENDLY

ÇEVRE DOSTU KLOZETLER

ECO FRIENDLY TOILETS

VASI ECOLOGICI

Bocchi, küresel ısınmanın beraberinde getirdiği kullanılabilir su kaynaklarının azalması sorunuyla mücadeleye katkı sağlamak için, sadece 4,5 litre su harcayan “Çevre Dostu Klozeti” geliştirdi. “Çevre Dostu Klozeti”, 4 kişilik bir ailenin yılda tam 30,000 litreden fazla su tasarruf etmesine katkıda bulunuyor. Kısıtlı kaynaklarımızı gelecek nesillere miras bırakılırken, bütçenizi korumayı sizde istemez misiniz?

As Bocchi, we strive to be ecofriendly and fight against the risk of drought caused by global warming. With this in mind, we are pleased to announce our water saving “Eco Friendly toilet” initiative. Operating only with 4,5 lt of water, Bocchi “Eco Friendly toilet” decreases the amount of water needed for the perfect flushing and helps to save annualy 30.000 liters of water for an avarage family. We invite you to Bocchi world to save our natural resources for next generations and your money.

L'acqua non é solo un bene prezioso che non deve essere sprecato, rapresenta anche un costo. La tecnologia “Vaso ecologico” riduce l'acqua utilizzata per lo scarico a soli 4,5lt e consente ad una famiglia di quattro persone il risparmio reale di circa 30.000 litri d'acqua all'anno. Vi invitiamo ad entrare nel mondo Bocchi per salvaguardare le risorse naturali del nostro pianeta per le generazioni future e allo stesso tempo risparmiare sui bilanci domestici.

IENDLY

JET FLUSH

KLOZET TEKNOLOJİSİNDE YENİLİK

TOILET TECHNOLOGY INNOVATION

NUOVA TECNOLOGIA PER IL WC

Klozet temizlik ve sessizliğinde yepyeni bir teknoloji

Bocchi Jet Flush, klozet temizliğini çok kolaylaştırıyor ve en yüksek seviyede hijyen sağlıyor. Bocchi'nin bu yeni teknolojisi ile konvansiyonel klozetlerde, suyun klozet içine döküldüğü kanallar artık yok. Bu güçlü tasarım ile bakteri ve mikropların saklanıp gizlenebilecekleri alanlar tamamen yok ediliyor.

Klozet iç temizliğinde bütün alanlar %100 yıkıyor. Hem de çok daha sessiz ve yüksek su verimliliği ile çalışıyor. Klozetin fonksiyon yapabilmesi için suyun sadece yukardan aktığı sistem yerine, klozetin iç haznesinde su seviyesinin altında bulunan güçlü "JET AKIŞ SİSTEMİ"nin yarattığı güçlü emiş ile tüm yüzeyler eskisinden daha fazla temizleniyor.

The newest design in toilet technology

Bocchi Jet Flush design makes the toilet cleaning easier and performs the highest level of hygiene.

With the "Jet Flush" technology the rim as in the conventional toilets where the water drops down into the closet is eliminated, thus the surfaces and the holes where bacterium and germs can grow does not exist. The inner surface of the toilet is %100 cleaned with the very strong whirl effect of the water. "Jet Flush" toilets are very silent and the water efficiency is very high. "The Jet Flush Design" creates a very strong flush within the bowl by the water jets under the water level and creates a very strong cleaning action.

L'ultima innovazione nella tecnologia del WC

Il design di Bocchi Jet Flush rende la pulizia più facile e permette il più alto livello di igiene. Con la tecnologia "Jet Flush" il bordo interno, come nei gabinetti convenzionali, non c'è più, eliminando le superfici ed i fori dove si sviluppano batteri e germi.

La superficie interna della toilette è pulita al 100% dal forte effetto vortice dell'acqua. I servizi igienici "Jet Flush" sono molto silenziosi e l'efficienza idrica è molto alta. Il design Jet Flush crea un flusso d'acqua con una forte azione pulitrice sia nel vaso che sul fondo del sanitario.

XL WC

XL KLOZET

EXTRA LARGE TOILET

VASO EXTRA LARGE

Dünyada bir ilk. Bocchi'den yepyeni bir tasarım

Bocchi banyoda konforu bir adım öteye taşıdı.

Bocchi XL klozet, 45cm genişlik ve 60 cm boyu ile standart boyutlardaki klozetlere göre %30 daha geniş bir oturma alanı sunuyor.

Yeni tasarım ile farklı beden ölçülerine sahip kullanıcılar için banyoda geçirilen süre daha rahat, daha konforlu bir hale geliyor.

A brand new design by Bocchi

Bocchi has increased the comfort in the bathroom to a new level. From now on you have options also for your wall hung toilets.

Bocchi XL with it's 45 cm width and 60 cm length, provides 30% greater surface area than usual toilet .

With this brand new design, the time spent in the bathroom is getting more comfortable for people with various body sizes.

Un altro innovativo prodotto creato da Bocchi

Bocchi alza nuovamente il livello di comfort all'interno dell'ambiente bagno con il nuovo vaso XL, che rappresenta d'ora in avanti un'ulteriore opzione di scelta nel panorama dei vasi sospesi.

Bocchi XL con i suoi 45 cm di larghezza e 60 cm di lunghezza offre il 30% di superficie in più rispetto ai gabinetti tradizionali. Con questo innovativo design, il tempo passato in bagno diventa più piacevole per tutti, indipendentemente dalla corporatura fisica.

Yepyeni üstün tasarım sayesinde en yüksek seviyede temizlik ve hijyen sağlıyor

Bocchi Jet Flush, klozet temizliğini çok kolaylaştırıyor ve en yüksek seviyede hijyen sağlıyor. Bocchi'nin bu yeni teknolojisi ile konvansiyonel klozetlerde, suyun klozet içine döküldüğü kanallar artık yok.

Bu güçlü tasarım ile bakteri ve mikropların saklanıp gizlenebilecekleri alanlar tamamen yok ediliyor. Klozet iç temizliğinde bütün alanlar %100 yıkıyor. Hem de çok daha sessiz ve yüksek su verimliliği ile çalışıyor.

Klozetin fonksiyon yapabilmesi için suyun sadece yukardan aktığı sistem yerine, klozetin iç haznesinde su seviyesinin altında bulunan güçlü "JET AKIŞ SİSTEMİ"nin yarattığı güçlü emiş ile tüm yüzeyler eskisinden daha fazla temizleniyor.

Jet Flush Design creates the most cleanest and hygienic toilet.

Bocchi Jet Flush design makes the toilet cleaning easier and performs the highest level of hygiene.

With the "Jet Flush" technology the rim as in the conventional toilets where the water drops down into the closet is eliminated, thus the surfaces and the holes where bacterium and germs can grow does not exist. The inner surface of the toilet is %100 cleaned with the very strong whirl effect of the water.

"Jet Flush" toilets are very silent and the water efficiency is very high. "The Jet Flush Design" creates a very strong flush within the bowl by the water jets under the water level and creates a very strong cleaning action.

Vasi piu' puliti ed igienici con la tecnologia Jet Flush.

Il design di Bocchi Jet Flush rende la pulizia più facile e permette il più alto livello di igiene.

Con la tecnologia "Jet Flush" il bordo interno, come nei gabinetti convenzionali, non c'è più, eliminando le superfici ed i fori dove si sviluppano batteri e germi. La superficie interna della toilette è pulita al 100% dal forte effetto vortice dell'acqua.

I servizi igienici "Jet Flush" sono molto silenziosi e l'efficienza idrica è molto alta. Il design Jet Flush crea un flusso d'acqua con una forte azione pulitrice sia nel vaso che sul fondo del sanitario.
